AutoDrive Motors – UAT Plan and Test Scripts

User acceptance testing for the AutoDrive Motors Salesforce build (TAP Group 3). It checks that the system does what AutoDrive asked for, using the business goals, requirements and user stories in the v8 workbook (`AutoDrive_Requirements_UserStories_v8.xlsx`). Every script is written in plain words and is run as the user it is meant for, never as an administrator.

How to use this document

1. Section 9 lists every user story by persona.
2. Section 10 is split by persona. Each tester only needs section 7 (how to run a script) and their own persona sections.
3. Record results in the **Actual** and **Pass/Fail** columns. Record problems in the defect log (section 11).

1. Purpose and business goals

Purpose. Confirm that each requirement works for the person who will use it, and decide whether AutoDrive can sign off the build.

Goal	What the business wants
O1 Operational visibility	One connected view of customers, vehicles, sales, finance and service
O2 Process consistency and control	Clear processes, owners and business rules that the system enforces
O3 Less manual follow-up	Approvals, payments, reminders and issues tracked by the system
O4 Management visibility	Timely figures on stock, sales, finance and service
O5 Adoption and handover	A solution people understand and can run

Area	What it covers	Stories
A. Enquiries and prospects	Website, walk-in and social enquiries, qualifying, assigning reps	US-11, US-23, US-30, US-31, US-32
B. Vehicles and stock	Live availability, sold status, low stock, imports, Finance view of stock	US-01, US-07, US-12, US-26, US-38
C. Sales and discounts	Discount approvals, fleet customers, no discount on instalments, vehicle change	US-02, US-08, US-16, US-20, US-25, US-39
D. Finance and payments	Payments, part and extra payments, instalment rules, reminders, late and default, reconciliation, legal, completion	US-03, US-05, US-09, US-15, US-17, US-19, US-28, US-29, US-36, US-37
E. Customer service	Logging and routing requests, reference numbers, history, escalation, response times, satisfaction, knowledge base	US-04, US-06, US-10, US-13, US-14, US-18, US-22, US-24, US-33, US-34, US-35
F. Management	One dashboard for the whole business	US-21

2. Scope

In scope

- Every user story in the v8 workbook with a MUST, SHOULD or COULD priority, tested by its persona.
- The business rules the build enforces: 30% minimum down payment, 12-month maximum (including after renegotiation), guarantor before sign-off, Head of Finance sign-off before monthly payments, one down payment per sale, no discount on instalment sales, approval above 5%, the 3-day reminder, 1/7/30-day late steps, legal escalation after 90 days.
- What each role can and cannot see or change (security matrix).
- Linked journeys across personas: a sale from website enquiry to first monthly payment, and a complaint from the website to closure (each persona runs its own part).

Out of scope (agreed)

- More than one showroom, used vehicles, sales commission.
- Text (SMS) and WhatsApp messages. Reminders and notices are sent by email only (team decision, 18 Oct 2026).
- Vehicle handover and ownership documents (workbook "Won't Have"). Only the Ownership Documents Status field is tested.
- Customer logins. Customers use the website forms and email only.
- Rep incentive for selling above list price (US-27, retired to Won't Have).
- Performance, load and data migration testing.

3. Where the testing happens

- **Environment:** Salesforce sandbox **Group3SB**, in the **AutoDrive Motors** app, on a desktop browser.
- **Website:** https://dk1791276250211--group3sb.sandbox.my.site.com/s/ (open it in a private or incognito window).
- **How to test as a user:** the UAT coordinator opens Setup > Users and clicks **Login** next to the test user. A blue banner shows who you are. Click **Log out as …** in the banner to return.
- **Evidence:** a screenshot for every failed step, and for the key result of every script.
- **Finding a record:** lists open on *Recently Viewed*. Click the list name and choose **All**, or use the search bar at the top.

4. Testers

Role	Test user (login)	Tester	Scripts they run
Customer (website)	No login, private window	Henry	Website enquiry and support request
Front Desk	Front Desk Staff test user	Henry	Walk-in enquiries
Social Media Handler	Social Media Handler test user	Henry	Instagram enquiries
Sales Rep	test.salesrep@autodrive.group3sb.test	Henry	Leads, sales, discounts, fleet, imports, vehicle change
Showroom Manager	test.showroommanager@autodrive.group3sb.test	Henry	Prospects, stock, low-stock alert, first discount approval
Finance Team	test.financeteam@autodrive.group3sb.test	Obed	Plans, payments, imports, Finance approvals
Head of Finance	test.headoffinance@autodrive.group3sb.test	Obed	Sign-off, rules, final approval, reconciliation, legal
Legal Team	test.legalteam@autodrive.group3sb.test	Obed	Viewing legal escalations
Customer Service Agent	test.csagent@autodrive.group3sb.test	Shedrack	Cases, customer history, knowledge base
Head of Customer Service	test.headofcs@autodrive.group3sb.test	Shedrack	Case overview, escalation, times, satisfaction, articles
Management	test.management@autodrive.group3sb.test	Sponsor	Dashboard, read-only checks
UAT coordinator (facilitator)	Admin	Hillary	Logs in as users, prepares data, records results and defects
Business sponsor (AutoDrive)			Watches, accepts results, signs off

5. Test data

Load before testing. Do not change it between runs except by running the scripts. Customer emails that should reach a tester use the tester's own inbox.

Customers

ID	Record	Details
TD-01	Returning customer	**Daniel Okoro** (contact, email ewryen@gmail.com), with past enquiries and a case
TD-02	Fleet customer	**Lagos Ride Hailing Ltd** (Fleet/Corporate account), with an Agreed Discount Rate
TD-03	Fleet customer	**Kano Logistics Ltd** (Fleet/Corporate account)
TD-04	New walk-in	A new person typed in during the test, e.g. **Amina Sule**, phone 0802 555 0101
TD-05	Website visitor	The tester's own name and email, typed into the website forms

Vehicles and stock

ID	Record	Details
TD-10	Models with stock	Toyota Corolla 2026, Kia Sportage 2026, Toyota Hilux 2026, Honda CR-V 2026 (several cars Available each)
TD-11	Model for the low-stock test	Any model; the tester sets its Low Stock Threshold above its Available Stock
TD-12	Model with no stock	A model with no Available cars, for the import request

Sales (fresh set)

Run `scripts/apex/fresh_sales_test_records.apex` before a round. It creates, owned by the Sales Rep: **Sale 1 (open, full payment, at Offer)**, **Sale 2 (7.5% discount approved)**, **Sale 3 (open)** and an open **Lead**, all named "AD Rerun

<date> …".

Instalment customers (`scripts/apex/instalment_test_plans.apex`; every plan follows all the rules)

ID	Customer	Set up for
TD-20	**Chiamaka Okonkwo**	On track; Month 1 due in a few days (3-day reminder; part and extra payment). Email: tester's inbox
TD-21	**Segun Ajayi**	Month 2 due today (full payment; or missed-payment notice the next day if not paid)
TD-22	**Emmanuel Udo**	Last month due (plan completion and completion email)
TD-23	**Hauwa Lawal**	Deposit paid, waiting for Head of Finance sign-off
TD-24	**Funke Ayo**	One month about 7 days late (late list; guarantor notice)
TD-25	**Folake Ogunleye**	One month 30+ days late, alert not sent yet (default alert the next morning)
TD-26	**Suleiman Bello**	Defaulted, a month unpaid for 90+ days (legal escalation)
TD-27	**Zainab Bello**	Plan created, deposit not paid yet (waiting for deposit)
TD-28	**Ngozi Okeke**	Signed off, on track, car reserved

Cases: created during the tests from the website (section 10.1, UAT-CU-02).
Overnight jobs. Some results only appear after the automatic morning jobs run (marked **(next day)**): marking late, the 3-day reminder, the 1/7/30-day notices, the low-stock alert, the daily plan refresh.

6. Entry criteria

Testing starts only when all of these are true. The coordinator ticks each one.

[ ] The sandbox is **frozen**: no one changes the setup during a round, except to fix a logged defect.
[ ] Every test user in section 4 exists, can log in, and has the right profile and permission set group.
[ ] Test data in section 5 is loaded.
[ ] Every flow, validation rule and approval process in scope is **Active**.
[ ] Email is switched on: Setup > Deliverability > Access level = **All email**.
[ ] Each tester has their scripts.
[ ] Smoke test passed: each test user logs in, opens the AutoDrive Motors app and sees their tabs.
[ ] No open Critical defect.
[ ] The defect log (section 11) is ready, with Hillary as the owner for triage.

7. How to run a script

1. Log in as the user named in the script. Never as an administrator, unless the script says so.
2. Follow the steps in order. Do not skip.
3. After each step, compare what you see with **Expected**. Write what you actually saw in **Actual**.
4. Mark the step **Pass** or **Fail**. The script passes only if every step passes.
5. For a failure: take a screenshot, note the script ID and step number, and tell the coordinator, who logs a defect.
6. After a defect is fixed, run the **whole** script again (next round). Only the tester closes a defect.

Defect severity

Severity	Meaning	Example
Critical	A business rule is broken, or work cannot continue	A car can be sold twice; Finance can sign off a plan
High	A MUST story fails, with no workaround	A discount above 5% is not sent for approval
Medium	Works wrongly, but there is a workaround	A list shows the wrong column
Low	Wording, layout or cosmetic	A typo on a label

Defect or change request? A defect is when the system does not do what was agreed. A change request is something new or different from what was agreed (for example "can it also text the customer?"). Change requests are logged as **CR-xx** and decided later; they do not block sign-off.

8. Exit criteria

Testing ends, and sign-off is requested, when all of these are true:

- Every script in scope has been run and its result recorded. Blocked scripts are listed with the reason and a date.
- **100%** of MUST scripts have passed.
- At least **90%** of SHOULD and COULD scripts have passed, and the rest have an agreed plan.
- No open **Critical** or **High** defects.

- Every Medium and Low defect is fixed, or accepted in writing by AutoDrive with a fix date.
- Every business rule in section 2 has been proved at least once.
- Every persona section has been run.
- The results summary (section 11) is complete and the sign-off table is signed.

If not met, testing continues after fixes, and only the failed and affected scripts are run again.

9. Script index by persona

Persona	Script	Story	Scenario	Priority	Built
Customer (website)	UAT-CU-01	US-11	Send a sales enquiry from the website	MUST	■
Customer (website)	UAT-CU-02	US-06, US-34	Send support requests and get a reference number	MUST	■
Customer (website)	UAT-CU-03	US-19	Get a reminder before a payment is due	SHOULD	■
Front Desk	UAT-FD-01	US-23	Ask every walk-in the same questions	SHOULD	■
Front Desk	UAT-FD-02	US-30	Walk-in goes to the next free rep, without duplicates	SHOULD	■
Social Media Handler	UAT-SO-01	US-31	Instagram enquiries with no visit booked	SHOULD	■
Sales Rep	UAT-SR-01	US-11	A website enquiry reaches me automatically	MUST	■
Sales Rep	UAT-SR-02	US-23	A lead can't be converted without its purpose	SHOULD	■
Sales Rep	UAT-SR-03	US-01	A sold car shows Sold at once and can't be sold again	MUST	■
Sales Rep	UAT-SR-04	US-07	See live availability	MUST	■
Sales Rep	UAT-SR-05	US-02	Request a discount and see where it sits	MUST	■
Sales Rep	UAT-SR-06	US-16	A fleet customer in one place, several vehicles on one sale	SHOULD	■
Sales Rep	UAT-SR-07	US-20	A fleet customer's agreed rate applies automatically	SHOULD	■
Sales Rep	UAT-SR-08	US-25	No discount on an instalment sale	SHOULD	■
Sales Rep	UAT-SR-09	US-29	An instalment sale can't close before deposit and sign-off	SHOULD	■
Sales Rep	UAT-SR-10	US-38	Raise an import request when a model is out of stock	SHOULD	■
Sales Rep	UAT-SR-11	US-39	Change vehicle or payment type before collection	SHOULD	■
Sales Rep	UAT-SR-12	Security	What the rep can and can't see or do	MUST	■
Showroom Manager	UAT-SM-01	US-32	See where deals are stuck	SHOULD	■
Showroom Manager	UAT-SM-02	US-02	Approve or reject a discount	MUST	■
Showroom Manager	UAT-SM-03	US-12	Low-stock alert	SHOULD	■
Showroom Manager	UAT-SM-04	US-30	Returning and high-profile walk-ins come to me	SHOULD	■
Showroom Manager	UAT-SM-05	US-38	See import requests	SHOULD	■
Finance Team	UAT-FT-01	US-08	See and approve the discounts waiting for me	MUST	■
Finance Team	UAT-FT-02	US-29	Set up an instalment plan and take the down payment	SHOULD	■
Finance Team	UAT-FT-03	US-03	Record a payment; balances update themselves	MUST	■

Persona	Script	Story	Scenario	Priority	Built
Finance Team	UAT-FT-04	US-28	Part, short and extra payments	SHOULD	■
Finance Team	UAT-FT-05	US-15	Reminder 3 days before a payment is due	SHOULD	■
Finance Team	UAT-FT-06	US-17	Alert when a customer first defaults	SHOULD	■
Finance Team	UAT-FT-07	US-37	Completion email when a plan is paid off	COULD	■
Finance Team	UAT-FT-08	US-38	Move an import request on until the cars arrive	SHOULD	■
Finance Team	UAT-FT-09	Security	What Finance can and can't do	MUST	■
Head of Finance	UAT-HF-01	US-02, US-08	Final discount approval	MUST	■
Head of Finance	UAT-HF-02	US-29	Instalment rules and sign-off	SHOULD	■
Head of Finance	UAT-HF-03	US-05	One list of late and defaulting customers	MUST	■
Head of Finance	UAT-HF-04	US-09	Bank total against recorded payments	MUST	■
Head of Finance	UAT-HF-05	US-36	Escalate an unrecoverable default to Legal	SHOULD	■
Head of Finance	UAT-HF-06	US-26	See stock, models and list prices	SHOULD	■
Head of Finance	UAT-HF-07	US-39	Approve a refund on a vehicle change	SHOULD	■
Head of Finance	UAT-HF-08	Security	What the Head of Finance can and can't do	MUST	■
Legal Team	UAT-LG-01	US-36	See a legal escalation	SHOULD	■
Customer Service Agent	UAT-CS-01	US-06	Cases arrive from the website, routed to the right team	MUST	■
Customer Service Agent	UAT-CS-02	US-11	A new case is assigned to me automatically	MUST	■
Customer Service Agent	UAT-CS-03	US-04	See a customer's history, not payment amounts	MUST	■
Customer Service Agent	UAT-CS-04	US-13	Reply to and close a case	SHOULD	■
Customer Service Agent	UAT-CS-05	US-35	The customer is told when the case changes	SHOULD	■
Customer Service Agent	UAT-CS-06	US-22	Record a satisfaction score	SHOULD	■
Customer Service Agent	UAT-CS-07	US-14	Search the knowledge base	SHOULD	■
Customer Service Agent	UAT-CS-08	Security	What the agent can and can't see	MUST	■
Head of Customer Service	UAT-HC-01	US-10	Every case's owner and status	MUST	■
Head of Customer Service	UAT-HC-02	US-33	An unanswered case escalates itself	SHOULD	■
Head of Customer Service	UAT-HC-03	US-13	Response and resolution times	SHOULD	■
Head of Customer Service	UAT-HC-04	US-24	Satisfaction trend	SHOULD	■

Persona	Script	Story	Scenario	Priority	Built
Head of Customer Service	UAT-HC-05	US-18	Maintain knowledge articles	SHOULD	■
Management	UAT-MG-01	US-21	One dashboard for the whole business	COULD	■
Management	UAT-MG-02	Security	Read only	MUST	■

Linked scripts. Some scripts carry on from another persona's script (for example, the manager approves the discount the rep requested). Each script says at the top what must be done first and by whom.

10. The scripts, by persona

10.1 Customer (website)

Login: none. Open the website in a private window: https://dk1791276250211--group3sb.sandbox.my.site.com/s/ · **Tester:** Henry

UAT-CU-01: Send a sales enquiry from the website (US-11)

Traces: Goal O3 · Story US-11. **Scenario:** A customer asks about a car on the website. **Test data:** TD-05, a car from TD-10. **Then:** the Sales Rep runs UAT-SR-01.

Step	What to do	Expected	Actual	Pass/Fail
1	Open the website and fill in **Sales enquiry** with your name, phone or email, and a car. Submit	A thank-you message shows	Thank-you pops up	Pass

UAT-CU-02: Send support requests and get a reference number (US-06, US-34)

Traces: Goal O1, O3 · Stories US-06, US-34. **Test data:** TD-05. **Then:** the CS Agent runs UAT-CS-01.

Step	What to do	Expected	Actual	Pass/Fail
1	**Contact support**, topic **Payments or my instalment plan**, submit	A reference number on screen, and an email with the same number		
2	Submit **Buying a vehicle or my order**	A reference number on screen and by email		
3	Submit **A problem with my vehicle**	A reference number on screen and by email		

UAT-CU-03: Get a reminder before a payment is due (US-19)

Traces: Goal O3 · Story US-19. **Test data:** TD-20 Chiamaka Okonkwo (her email is the tester's inbox). **(next day)**

Step	What to do	Expected	Actual	Pass/Fail
1	The morning after Chiamaka's Month 1 becomes 3 days away, check the inbox	A reminder with the amount and the due date		

10.2 Front Desk

Login: Front Desk Staff test user · **Tester:** Henry · **Tabs:** Home, Leads only

UAT-FD-01: Ask every walk-in the same questions (US-23)

Traces: Goal O2 · Story US-23. **Test data:** TD-04 Amina Sule. **Then:** the Sales Rep runs UAT-SR-02.

Step	What to do	Expected	Actual	Pass/Fail
1	**Leads > New**. Name, phone, Channel = **Walk-in**	The form shows Qualification Answers, Visit Purpose and Vehicle Model of Interest	Done, saves	Pass
2	Fill in the qualifying answers, Visit Purpose = Purchase, pick a model, save	The lead saves	Yes	Pass

UAT-FD-02: Walk-in goes to the next free rep, without duplicates (US-30)

Traces: Goal O2, O3 · Story US-30. **Test data:** TD-04 (new), TD-01 Daniel Okoro (returning). **Then:** the Showroom Manager runs UAT-SM-04.

Step	What to do	Expected	Actual	Pass/Fail
1	Create a walk-in lead for a new person, save	**Lead Owner** is a sales rep, picked automatically	Done	Pass
2	Create a lead for **Daniel Okoro** with his existing phone number	A warning that a matching record already exists	It shows the warning	Pass
3	Create a walk-in lead with Channel = **Returning/High-profile** (or tick Returning or High-profile)	It saves and opens read-only; the owner is the Showroom Manager; a bell message says the client was passed to the manager	Round 1: stayed with the rep. Round 2: passed to the Showroom Manager	Pass (round 2)
4	Open **Leads > List View > AutoDrive - High-profile Clients**	The client is listed, owned by the Showroom Manager	Listed	Pass

10.3 Social Media Handler

Login: Social Media Handler test user · **Tester:** Henry · **Tabs:** Home, Leads only

UAT-SO-01: Instagram enquiries with no visit booked (US-31)

Traces: Goal O3 · Story US-31. **Test data:** a new Instagram enquiry.

Step	What to do	Expected	Actual	Pass/Fail
1	**Leads > New**, Channel = **Instagram**, no Booked Visit Date, save	It saves	It saves	
2	Open **Leads > AutoDrive - Enquiries No Visit Booked**	The new enquiry is listed		
3	Enter a Booked Visit Date on it, save, open the list again	It is no longer listed		

10.4 Sales Rep

Login: test.salesrep@autodrive.group3sb.test · **Tester:** Henry

UAT-SR-01: A website enquiry reaches me automatically (US-11)

Traces: Goal O3 · Story US-11. **First:** stay logged in, then the Customer runs UAT-CU-01.

Step	What to do	Expected	Actual	Pass/Fail
1	Log in and stay logged in	The rep's Home page opens	Opens	Pass
2	Wait up to 5 minutes after UAT-CU-01. Open **Leads > My Leads**	The enquiry is there, owned by the rep, Channel = Web, with the chosen car and **Auto Assigned At** filled in	Visible	Pass
3	Check email and notifications	A "lead assigned to you" message	No email arrived	Fail (DEF-15)

UAT-SR-02: A lead can't be converted without its purpose (US-23)

Traces: Goal O2 · Story US-23. **First:** Front Desk runs UAT-FD-01.

Step	What to do	Expected	Actual	Pass/Fail
1	Open the walk-in lead, clear Visit Purpose, click **Convert**	Refused until the purpose (and, for a purchase, the vehicle) is filled in	Refuses to save	Pass
2	Fill the purpose and vehicle, convert	A sale is created		

UAT-SR-03: A sold car shows Sold at once and can't be sold again (US-01)

Traces: Goal O1, O2 · Story US-01. **Test data:** fresh sales set (Sale 1, Sale 3), TD-28 Ngozi.

Step	What to do	Expected	Actual	Pass/Fail
1	Open **AD Rerun … Sale 1 (open)**, note the vehicle	The vehicle shows Available or Reserved		
2	Set Stage to **Closed Won**, save, click the vehicle	Status is **Sold**; nobody edited the car		
3	Open **Sale 3**, edit **Vehicle**, search for the car from step 2	The sold car is not offered		
4	On another open sale, try to pick Ngozi Okeke's reserved car	Refused: "That car is reserved for another customer's sale…"		

UAT-SR-04: See live availability (US-07)

Traces: Goal O1 · Story US-07.

Step	What to do	Expected	Actual	Pass/Fail
1	**AM Vehicles > All**	Every car shows Available, Reserved or Sold, with model, colour and year		
2	Try to edit a car	View only		

UAT-SR-05: Request a discount and see where it sits (US-02)

Traces: Goal O2, O3 · Story US-02. **Test data:** Sale 1, Sale 3. **Then:** the Showroom Manager runs UAT-SM-02.

Step	What to do	Expected	Actual	Pass/Fail
1	On Sale 1, **Request Discount**, rate 5%, give a reason	Approved straight away (Auto Approved ticked)		
2	On Sale 3, request **7.5%** with a reason	Current Step = **With Showroom Manager**, with the date and time		
3	Open the request	The customer, each vehicle with its own list price, the total, the discount value and the price after discount		
4	After the manager has acted (UAT-SM-02), open Sale 3	The sale's Approval Status shows where the discount is now, or Rejected		

UAT-SR-06: A fleet customer in one place, several vehicles on one sale (US-16)

Traces: Goal O1 · Story US-16. **Test data:** TD-02 Lagos Ride Hailing Ltd.

Step	What to do	Expected	Actual	Pass/Fail
1	Open **Lagos Ride Hailing Ltd**	Contact person, agreed discount rate, owner and past sales on one page		
2	On an open fleet sale, **Add Fleet Vehicles**: pick a type and how many	That many identical cars are added and Reserved; totals update		
3	Ask for more cars of a type than are in stock	Refused, with a suggestion to raise an import request		
4	On a sale for an individual, try to add fleet vehicles	Refused: fleet sales only		

UAT-SR-07: A fleet customer's agreed rate applies automatically (US-20)

Traces: Goal O2 · Story US-20. **Test data:** TD-02.

Step	What to do	Expected	Actual	Pass/Fail
1	On a fleet sale, **Request Discount**, leave the rate blank, save	The agreed rate is filled in, worked out on the fleet total		

UAT-SR-08: No discount on an instalment sale (US-25)

Traces: Goal O2 · Story US-25. **Test data:** Sale 2 (7.5% approved).

Step	What to do	Expected	Actual	Pass/Fail
1	On an instalment sale, try **Request Discount**	Refused, with a message saying why		
2	Open Sale 2, change Payment Mode to **Instalment**, save	The approved discount becomes **Invalidated**		

UAT-SR-09: An instalment sale can't close before deposit and sign-off (US-29)

Traces: Goal O2 · Story US-29. **Test data:** TD-27 Zainab Bello.

Step	What to do	Expected	Actual	Pass/Fail
1	Open Zainab Bello's sale, set Stage **Closed Won**	Refused: needs the down payment and the Head of Finance sign-off first		
2	On an instalment sale, set the months to 6	The 30% deposit fills itself and the monthly amount is worked out; Finance is notified		

UAT-SR-10: Raise an import request (US-38)

Traces: Goal O1, O3 · Story US-38. **Test data:** TD-12. **Then:** Finance runs UAT-FT-08.

Step	What to do	Expected	Actual	Pass/Fail
1	On a customer, **Import Requests > New**: the model, Quantity 2, Reason = Out of stock. Save	Saved as Requested; Requested By is the rep		
2	Try to save one without a reason	Refused, with a message		
3	After Finance marks it Imported (UAT-FT-08), check notifications	A notice that the cars arrived		

UAT-SR-11: Change vehicle or payment type before collection (US-39)

Traces: Goal O2 · Story US-39. **Then:** the Head of Finance runs UAT-HF-07.

Step	What to do	Expected	Actual	Pass/Fail
1	On a sale with a payment, change the vehicle to a cheaper one	The amount paid carries over; a refund is shown as needing approval		
2	Change a sale from instalment to full payment	Earlier payments count towards the full price		

UAT-SR-12: What the rep can and can't see or do (Security)

Traces: Goal O2 · Security matrix.

Step	What to do	Expected	Actual	Pass/Fail
1	Look at the tabs	Only the rep's tabs		

Step	What to do	Expected	Actual	Pass/Fail
2	**Leads > List View**, open the list menu	AutoDrive - My Leads, AutoDrive - Website Leads, AutoDrive - High-profile Clients (and Recently Viewed)		
3	Look for Payments, Instalment Plans, Reconciliation	Not visible		
4	Open your own discount request	No Approve button		

10.5 Showroom Manager

Login: test.showroommanager@autodrive.group3sb.test · **Tester:** Henry

UAT-SM-01: See where deals are stuck (US-32)

Traces: Goal O4 · Story US-32.

Step	What to do	Expected	Actual	Pass/Fail
1	**Leads > AutoDrive - Open Prospects**	Each open lead shows channel, owner and status		
2	**Leads > AutoDrive - Prospects With No Rep**	Leads without a rep (if any)		
3	**Opportunities > All Open Opportunities**	Each open sale shows owner, stage and approval status		

UAT-SM-02: Approve or reject a discount (US-02)

Traces: Goal O2, O3 · Story US-02. **First:** the Sales Rep runs UAT-SR-05. **Then:** Finance runs UAT-FT-01.

Step	What to do	Expected	Actual	Pass/Fail
1	**Home > Items to Approve**, open the 7.5% request	Vehicles, list prices, total, discount value and price after discount are shown		
2	Approve it	Step moves to **With Finance**, with a new date and time		
3	Approve and reject lists: open **Approved by Me - Showroom Manager**	The approved request is listed		
4	Have the rep request another above 5%; **Reject** it with a reason	Status Rejected		

UAT-SM-03: Low-stock alert (US-12)

Traces: Goal O3, O4 · Story US-12. **Test data:** TD-11.

Step	What to do	Expected	Actual	Pass/Fail
1	Open a Vehicle Model, set **Low Stock Threshold** above its Available Stock, save	It saves		
2	**(next day)** check the bell	One low-stock notification for that model		
3	Open **Vehicle Models > AutoDrive - Low Stock**	The model is listed		
4	**(day after)** check the bell again	No repeat alert for the same model		

UAT-SM-04: Returning and high-profile walk-ins come to me (US-30)

Traces: Goal O2 · Story US-30. **First:** Front Desk runs UAT-FD-02 step 3.

Step	What to do	Expected	Actual	Pass/Fail
1	Check the bell, then **Leads > AutoDrive - High-profile Clients**	A message about the new client; the client is listed and owned by the manager		
2	Change its owner to a chosen rep	Allowed and saved		

UAT-SM-05: See import requests (US-38)

Traces: Goal O1 · Story US-38. **First:** the Sales Rep runs UAT-SR-10.

Step	What to do	Expected	Actual	Pass/Fail
1	Open **AM Import Requests**	The rep's request, with quantity, reason and status		

10.6 Finance Team

Login: test.financeteam@autodrive.group3sb.test · **Tester:** Obed

UAT-FT-01: See and approve the discounts waiting for me (US-08)

Traces: Goal O3 · Story US-08. **First:** the Showroom Manager runs UAT-SM-02. **Then:** the Head of Finance runs UAT-HF-01.

Step	What to do	Expected	Actual	Pass/Fail
1	**Home > Items to Approve**	The request is listed with its date		
2	Approve it	Step moves to **With Head Office** at once		

UAT-FT-02: Set up an instalment plan and take the down payment (US-29)

Traces: Goal O2, O3 · Story US-29. **First:** the Sales Rep has an instalment sale at Payment Arranged. **Then:** the Head of Finance runs UAT-HF-02.

Step	What to do	Expected	Actual	Pass/Fail
1	**Opportunities > AutoDrive - Plans To Set Up**, open the sale	The sale is listed with months, deposit and monthly amount		
2	**Create Instalment Plan**, choose a guarantor, save	Plan status **Awaiting Sign-off**; one instalment per month is created		
3	**Record Down Payment**	Saved; the sale's car becomes **Reserved**; Next Step says it is waiting for sign-off		
4	Click **Record Down Payment** again	Refused: the down payment is already recorded		
5	Try **Record Payment** on Month 1	Refused: the Head of Finance has not signed off the plan		

UAT-FT-03: Record a payment; balances update themselves (US-03)

Traces: Goal O2, O3 · Story US-03. **Test data:** TD-21 Segun Ajayi.

Step	What to do	Expected	Actual	Pass/Fail
1	**AM Instalment Plans > All**, open Segun Ajayi's plan > Related > Instalments > **Month 2 of 6**	Balance 3,800,000		
2	**Record Payment**, keep the amount, record	Amount Paid 3,800,000, Balance 0, Status Paid; Recorded By and the date filled in		
3	Back on the plan, **Where This Plan Stands**	Month 2 PAID; Next Step names Month 3		

UAT-FT-04: Part, short and extra payments (US-28)

Traces: Goal O2 · Story US-28. **Test data:** TD-20 Chiamaka Okonkwo.

Step	What to do	Expected	Actual	Pass/Fail
1	Month 1 of 6 > Record Payment > **2,000,000** (due 2,500,000)	Balance **500,000** owed; "part paid: 2,000,000"		
2	Month 2 of 6 > Record Payment > **3,000,000**	PAID, "500,000 extra, kept as credit"		

UAT-FT-05: Reminder 3 days before a payment is due (US-15)

Traces: Goal O3 · Story US-15. **Test data:** TD-20. **(next day)**

Step	What to do	Expected	Actual	Pass/Fail
1	Open Chiamaka's plan the morning her Month 1 is 3 days away	Month by Month shows "Sent: reminder email" with the date		
2	Look at a month that is already paid	No reminder was sent for it		

UAT-FT-06: Alert when a customer first defaults (US-17)

Traces: Goal O3 · Story US-17. **Test data:** TD-25 Folake Ogunleye. **(next day)**

Step	What to do	Expected	Actual	Pass/Fail
1	Before the morning job, open Folake's plan	Month 1 LATE by 30+ days; plan Late		
2	**(next day)** open the plan and the bell	Month 1 DEFAULTED, plan **Defaulted**, one alert		
3	**(day after)** check	No second alert for the same month		

UAT-FT-07: Completion email when a plan is paid off (US-37)

Traces: Goal O3 · Story US-37. **Test data:** TD-22 Emmanuel Udo.

Step	What to do	Expected	Actual	Pass/Fail
1	Month 3 of 3 > Record Payment > keep the amount	Plan **Completed**; Completion Email Sent ticked		
2	Edit and save the plan again	No second email		

UAT-FT-08: Move an import request on until the cars arrive (US-38)

Traces: Goal O1, O3 · Story US-38. **First:** the Sales Rep runs UAT-SR-10.

Step	What to do	Expected	Actual	Pass/Fail
1	Open the request and move it on step by step to **Imported**	Each step saves		
2	Open the model	Available Stock has gone up by the quantity (new cars named IMP-…)		

UAT-FT-09: What Finance can and can't do (Security)

Traces: Goal O2 · Security matrix.

Step	What to do	Expected	Actual	Pass/Fail
1	Open a plan	Head of Finance Sign-off, Signed Off By and Signed Off On can't be edited		
2	Look at the tabs	Only Finance's tabs		

10.7 Head of Finance

Login: test.headoffinance@autodrive.group3sb.test · **Tester:** Obed

UAT-HF-01: Final discount approval (US-02, US-08)

Traces: Goal O2 · Stories US-02, US-08. **First:** Finance runs UAT-FT-01.

Step	What to do	Expected	Actual	Pass/Fail
1	**Home > Items to Approve**, open the request	Vehicles, list prices, total and price after discount are shown		
2	Approve it	Status **Approved**; Approved By and Approved On filled in		

UAT-HF-02: Instalment rules and sign-off (US-29)

Traces: Goal O2 · Story US-29. **Test data:** TD-28 Ngozi Okeke, TD-23 Hauwa Lawal.

Step	What to do	Expected	Actual	Pass/Fail
1	On Ngozi's plan set Term in Months to **13**, save	Refused: no longer than 12 months		
2	Set Down Payment % to **20**, save	Refused: at least 30%		
3	Open Hauwa's plan, tick **Head of Finance Sign-off**, save	Signed Off By and Signed Off On fill themselves; Awaiting Sign-off > Active		
4	Untick a guarantor's **Income Check Done**; try to sign off a plan using that guarantor	Refused: income check must be done first		

UAT-HF-03: One list of late and defaulting customers (US-05)

Traces: Goal O4 · Story US-05. **Test data:** TD-24, TD-25, TD-26.

Step	What to do	Expected	Actual	Pass/Fail
1	**AM Instalment Plans > Needs Attention**	Funke Ayo, Folake Ogunleye (Late) and Suleiman Bello (Defaulted)		
2	Open Funke's plan	Next Step says how many days late, how much is owed and what to do		

UAT-HF-04: Bank total against recorded payments (US-09)

Traces: Goal O2 · Story US-09.

Step	What to do	Expected	Actual	Pass/Fail
1	**AM Reconciliation Entries > New**: a Date and a Bank Total different from that day's payments. Save	Recorded Total fills itself; the Difference shows; Status **Flagged**		
2	Check the bell	An alert: bank and recorded payments do not match		
3	Set Status to **Explained** with Note empty	Refused: write the cause in Note		
4	Write a note, set Explained, save	Saves as Explained		

UAT-HF-05: Escalate an unrecoverable default to Legal (US-36)

Traces: Goal O2, O3 · Story US-36. **Test data:** TD-26 Suleiman Bello; TD-25 Folake for the refusal. **Then:** Legal runs UAT-LG-01.

Step	What to do	Expected	Actual	Pass/Fail
1	Folake's plan > **Raise Legal Escalation**	Refused: no month is 90+ days unpaid		
2	Suleiman's plan > **Raise Legal Escalation**; Yes to both questions; enter months defaulted and amount owed	Raised; the screen says Legal was notified		
3	Refresh the plan	Plan Status **With Legal**; Related > Legal Escalations shows it with **Legal Team Notified At**		

UAT-HF-06: See stock, models and list prices (US-26)

Traces: Goal O1 · Story US-26.

Step	What to do	Expected	Actual	Pass/Fail
1	Open **AM Vehicles** and **Vehicle Models**	Stock and list prices visible		
2	Try to edit a car or a price	Not allowed		
3	Open **AutoDrive - Models With No List Price**	Models missing a price (if any)		

UAT-HF-07: Approve a refund on a vehicle change (US-39)

Traces: Goal O2 · Story US-39. **First:** the Sales Rep runs UAT-SR-11.

Step	What to do	Expected	Actual	Pass/Fail
1	Approve the refund	The refund is recorded with who approved it		

UAT-HF-08: What the Head of Finance can and can't do (Security)

Traces: Goal O2 · Security matrix.

Step	What to do	Expected	Actual	Pass/Fail
1	Open a sale	No edit pencils; no Request Discount button		
2	Look at the tabs	Only the Head of Finance's tabs		

10.8 Legal Team

Login: test.legalteam@autodrive.group3sb.test · **Tester:** Obed

UAT-LG-01: See a legal escalation (US-36)

Traces: Goal O1 · Story US-36. **First:** the Head of Finance runs UAT-HF-05.

Step	What to do	Expected	Actual	Pass/Fail
1	**Legal Escalations > All**, open Suleiman Bello's	Customer, months defaulted and amount owed		
2	Try to edit it	View only		

10.9 Customer Service Agent

Login: test.csagent@autodrive.group3sb.test · **Tester:** Shedrack

UAT-CS-01: Cases arrive from the website, routed to the right team (US-06)

Traces: Goal O1, O3 · Story US-06. **First:** the Customer runs UAT-CU-02.

Step	What to do	Expected	Actual	Pass/Fail
1	**Cases > All Open Cases**	Payments > Finance; Buying > Showroom; Problem > Customer Service (Routed To filled in)		

UAT-CS-02: A new case is assigned to me automatically (US-11)

Traces: Goal O3 · Story US-11.

Step	What to do	Expected	Actual	Pass/Fail
1	Stay logged in. Ask the Customer to submit "A problem with my vehicle"			
2	Wait up to 5 minutes, **Cases > My Cases**	The case is the agent's (Auto Assigned At filled in)		

UAT-CS-03: See a customer's history, not payment amounts (US-04)

Traces: Goal O1 · Story US-04. **Test data:** TD-01 Daniel Okoro.

Step	What to do	Expected	Actual	Pass/Fail
1	Search **Daniel Okoro** by name or phone, open the account	Purchases, cases and messages on one record		
2	Look for prices or payment amounts	None are shown; view only		

UAT-CS-04: Reply to and close a case (US-13)

Traces: Goal O4 · Story US-13. **Then:** the Head of CS runs UAT-HC-03.

Step	What to do	Expected	Actual	Pass/Fail
1	Reply to the customer on your case	First Response At filled in (the automatic acknowledgement doesn't count)		
2	Close the case	Resolved At filled in		

UAT-CS-05: The customer is told when the case changes (US-35)

Traces: Goal O3 · Story US-35.

Step	What to do	Expected	Actual	Pass/Fail
1	Set a case to **Working**, then **Closed**	One status update and one resolution message under Customer Messages, each with the time sent		
2	Change only the owner	No message is sent		

UAT-CS-06: Record a satisfaction score (US-22)

Traces: Goal O4 · Story US-22.

Step	What to do	Expected	Actual	Pass/Fail
1	On a closed case, CSAT Score **11**, save	Refused: 1 to 10		
2	Enter **8**, save	Saves		

UAT-CS-07: Search the knowledge base (US-14)

Traces: Goal O3 · Story US-14.

Step	What to do	Expected	Actual	Pass/Fail
1	**Knowledge Articles**, search a keyword	Published articles with the issue and the agreed answer		
2	Try to edit an article	Not allowed		

UAT-CS-08: What the agent can and can't see (Security)

Traces: Goal O2 · Security matrix.

Step	What to do	Expected	Actual	Pass/Fail
1	Look at the tabs	Only the agent's tabs		
2	Look for prices on a sale	Not shown		

10.10 Head of Customer Service

Login: test.headofcs@autodrive.group3sb.test · **Tester:** Shedrack

UAT-HC-01: Every case's owner and status (US-10)

Traces: Goal O4 · Story US-10.

Step	What to do	Expected	Actual	Pass/Fail
1	**Cases > All Cases**	Every case has one owner and one status		

UAT-HC-02: An unanswered case escalates itself (US-33)

Traces: Goal O3 · Story US-33.

Step	What to do	Expected	Actual	Pass/Fail
1	Leave a new case with no reply for over **1 hour**	Priority High, Escalated At filled in, Head of CS flagged		
2	Check a closed case	Closed cases do not escalate		

UAT-HC-03: Response and resolution times (US-13)

Traces: Goal O4 · Story US-13. **First:** the CS Agent runs UAT-CS-04.

Step	What to do	Expected	Actual	Pass/Fail
1	Run report **AD Cases by Status**	The case shows with its first response and resolution times		

UAT-HC-04: Satisfaction trend (US-24)

Traces: Goal O4 · Story US-24. **First:** the CS Agent runs UAT-CS-06.

Step	What to do	Expected	Actual	Pass/Fail
1	Run report **AD Satisfaction Scores**	Scores over time with the number of ratings; blank is not counted as low		

UAT-HC-05: Maintain knowledge articles (US-18)

Traces: Goal O5 · Story US-18.

Step	What to do	Expected	Actual	Pass/Fail
1	Edit an article, save	The change shows at once		
2	Set another to **Retired**	Hidden from agents, not deleted		

10.11 Management

Login: test.management@autodrive.group3sb.test · **Tester:** Sponsor

UAT-MG-01: One dashboard for the whole business (US-21)

Traces: Goal O4 · Story US-21.

Step	What to do	Expected	Actual	Pass/Fail
1	Open Home / the Management dashboard	Sales, stock, finance and service figures together, no errors		
2	Compare one stock figure with the model record	They agree		

UAT-MG-02: Read only (Security)

Traces: Goal O2 · Security matrix.

Step	What to do	Expected	Actual	Pass/Fail
1	Open any record and try to edit it	Everything can be read, nothing can be changed
