AutoDrive Motors – User Acceptance Testing

This document holds the tests for the AutoDrive Motors Salesforce system. Each tester runs the tests for the roles given to them, as that role's user.

1. How to test

- **Where:** Salesforce sandbox **Group3SB**, in the **AutoDrive Motors** app, on a desktop browser.
- **Website:** https://dk1791276250211--group3sb.sandbox.my.site.com/s/ (open it in a private window).
- **Logging in:** the UAT coordinator logs you in as the role you are testing. A banner at the top shows the user you are working as.
- **Finding records:** lists open on *Recently Viewed*. Click the list name and choose another list, or use the search bar at the top.
- **Recording results:** follow the steps in order. Write what you saw under **Actual result**, then **Pass** or **Fail**. A test passes only when every step passes.
- **Problems:** take a screenshot, note the test and step number, and tell the UAT coordinator.
